Gear Overview Basic Knots Proper Grip Overhead & Roll Casting Presenting the Fly Landing Fish Reading Water

Toronto Fly Fishing School

WILSON'S fly shop is the best place to come for great selection, excellent service & friendly advice !

It's Time: This is your year to learn how to fly fish. If you have always wanted to try but never done it, this is the easiest way to learn ! Reward yourself & book your class at the Toronto Fly Fishing School.

Location: Our schools are held 40 minutes east of Toronto at the Wilmot Club. This club is one of the best places to learn how to fly fish in the Greater Toronto Area because it has stocked trout ponds, a bass pond and a river running through the property – & it is the closest fishing club to downtown Toronto !

The Program: Some instructors like to teach on rivers in what they call a 'real world setting' but this intimidates new students because learning to fly fish is similar to learning how to drive a car - you need to master the basics in a comfortable setting like a still water pond before heading out on a highway like one of our local rivers. Our schools teach you all of the basics you need to learn and our knowledgeable instructors teach you in a comfortable setting.

School Dates: Our courses are held on Saturdays from early May through Oct (but not long weekends)

Typical Day: Each course begins with a classroom session where you will have an overview of the gear and a brief history of the sport. You are introduced to the basic knots you need to know and learn how to properly grip the rod and other valuable basics that are too often overlooked before heading out for a 'dry land' casting session. Students are then taken to stocked ponds to learn how to properly present the fly and other important skills before spending the balance of the day fly fishing as our instructor gives you tips on how to improve your technique.
