# Ontario Fly Fishing Guides

**Guides & Outfitters**

Great Selection • Excellent Service • Friendly Advice

**Why Hire a Guide?:** It continues to surprise us how many anglers we meet who have not hired a guide. Not only will a guide save having to spend countless hours scouting water, a good guide will often make the difference between having a good day versus having a great day because our guides know what fly to use, when to use it and where to cast it !

In addition - and unfortunately for them - only a small fraction of fly fishers in Ontario are familiar with drift boat trips which often provide anglers one of the most enjoyable days of fishing they ever experience.

**Our Water:** Our team of guides & outfitters cover all of the better known destinations in Southern Ontario & each have a handful of lesser known & often more productive spots that all but guarantee a good day of fishing. You let us know what you want to catch and we will get you into an opportunity to land them !

**What is included ?:** This depends solely on your guide. Our in-house team will provide a lunch and non-alcoholic beverages but anglers are responsible for bringing their own gear, flies and current Ontario fishing licenses. A typical guided day is 6 hours long and clients are responsible for arranging their own transportation. Some of the guides we book do not provide anything to eat or drink but you will know what is & is not included before you book.

**Species:** Ontario is blessed with spectacular fishing and many are surprised that downtown Toronto is as close to great fishing as the Toronto Islands. The Grand River is Ontario's premier brown trout fishery and only 90 minutes from King & Bay. Popular local species include brown trout, brook & lake trout, bass, steelhead, carp, salmon, muskie and pike.

Please call our store for further details.
